

Magda Vanzetto – Career Pathway map

## Magda Vanzetto

Master study for 10 months to focus on Energy and Environment.
Participants were coming from all over the world: a mindopening experience. I made friends for life.

**Year 2005** 

I asked my boss to be closer to projects implementations, to see how the idesa turned into reality. The senior project manager became my mentor and taught me on the job how to be a good PM.

2014

I started my first experience as Team Lead. I had to learn new skills, beyond technical (and I'm still learning).

## **Year 2004**

Milestone 1

Master Degree in Electrical Engineering. I spent about 4 months preparing my master thesis in a lab. At the lectures we were only a few females in the

**Year 2005** 

Started Working for Siemens in Italy in energy performance contracting. I had to collect data to prove the installed systems were reaching the guaranteed performance.

The senior engineer in the team became my mentor and introduced me to HVAC and controls strategies to make buildings energy systems more efficient.

**Year 2008** 

Milestone 4

Moved to
Switzerland, same
company, new job,
new challenges.
Working in an
international
environment is an
amazing
experience.

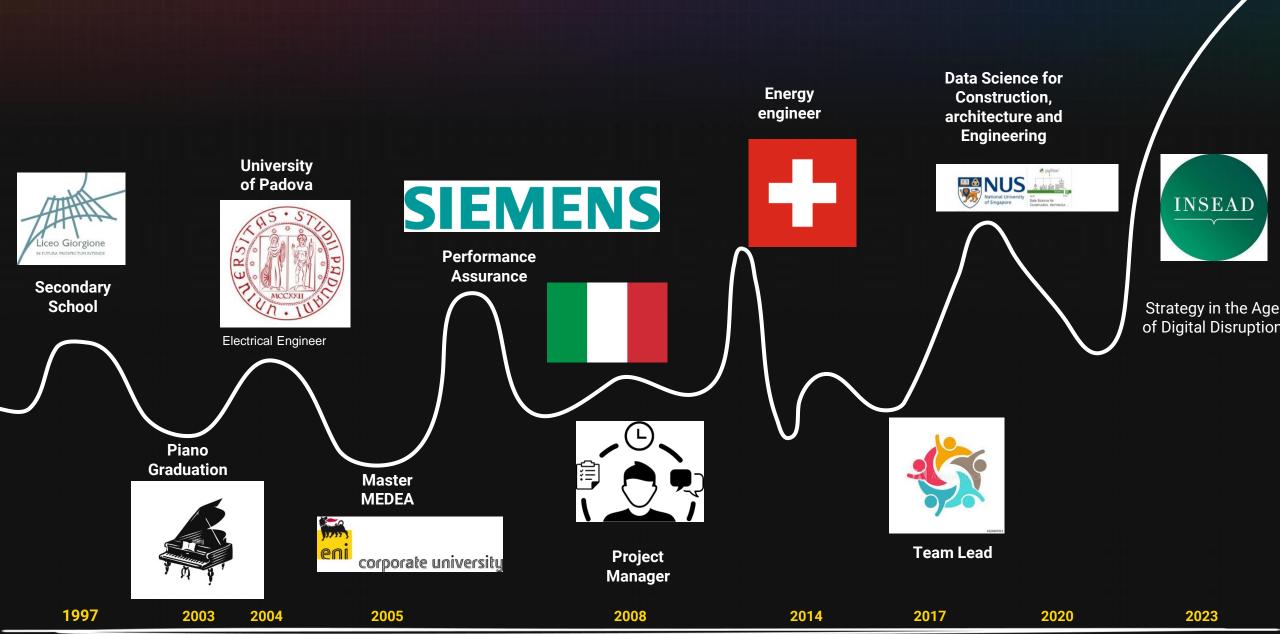

2017
