

Christina Kiamili – Career Pathway map

Christina Kiamili

Got my first internship at greenTEG, an ETH startup, in the role of Business Developer for Building Technologies. (heat flux sensors for building material)

2018

Got a job in Siemens as Portfolio Manager for IoT applications in Europe. Focused on sensors and software for real time asset tracking and space optimization

2020

Milestone 4

Expanding my field of expertise in Digital Twins for Chiller plant optimization

Year 2016

Milestone 1

Enrolled at ETH for the MSc in Integrated Building Systems. An engineering degree with strong forcus on Sustainability.

Second Intrenship at Siemens as a technical intern for building performance and sustainabiliy applications.

2019

Completed my thesis on Building Informaton Modelling (BIM) and Lifecycle Assesment (LCA) for HVAC.

Published an academic paper on Sustainability open access journal

2022

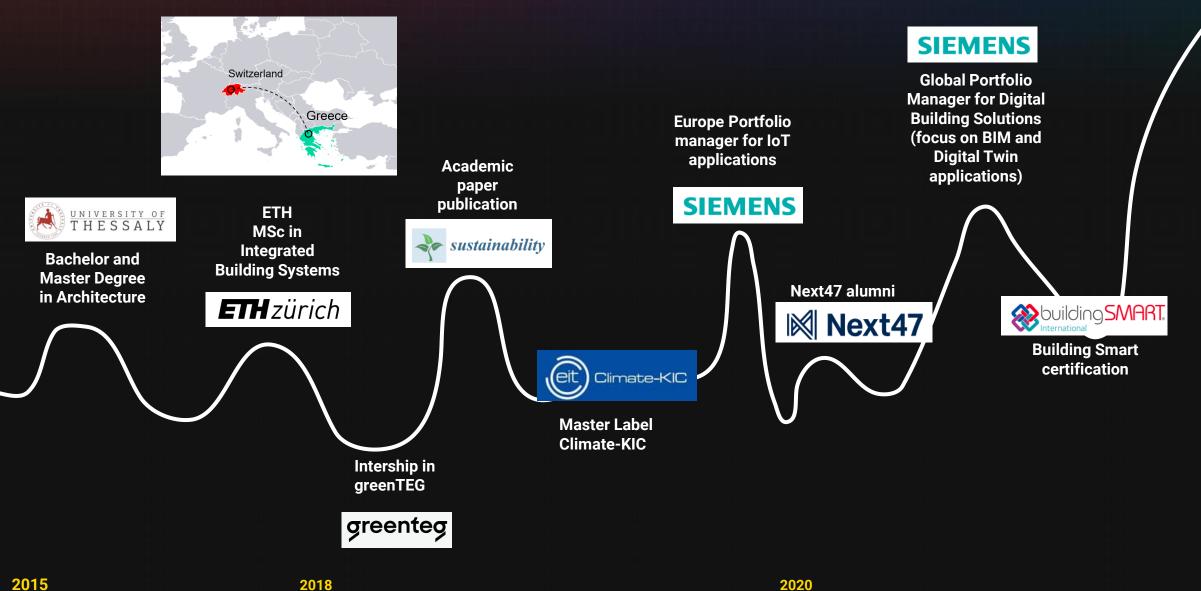

Got my current position as Global portfolio Manager for BIM applications and Digital Twin Software

2025
